

FROM THE WEBCHECKOUT TEAM

INTRODUCING WEBCHECKOUT LITE

An affordable option for start-ups and small inventories.

**Now Every Inventory Manager Can Harness
the Power of WebCheckout!**

WHAT IS WEBCHECKOUT LITE?

WebCheckout Lite was modeled after its big brother, WebCheckout Pro. It offers a streamlined solution designed specifically for start-ups and small inventories.

Features

- Prevent double booking.
- Email confirmation and reminders.
- Activity dashboards for staff and management.
- Extensive usage reports, analytics and history tracking.
- Ability to group equipment into kits and track accessories.
- Compatible with nearly all barcode scanners for checkouts and checkins.
- Set repeating reservations and checkouts.
- Fine-grained control over who can have what, when and for how long.
- Detailed control over renewal process.
- Complete inventory history tracking.

When is WebCheckout Lite right for you?

- You have a smaller inventory.
- You have many of the same kind of assets but require inventory control.
- You need inventory control on a limited budget.
- You need control now with room for future growth.

Benefits of WebCheckout Lite

- Highly secure and cloud-based — No IT Assistance Required.
- Quick, low-cost implementation (1 week).
- Start addressing the full lifecycle of your equipment.
